Keyword Index Volumes 128–135 (2001)

A posteriori algorithm, (135) 42
Academic research, (130) 121
Activity networks, (131) 440
Adaptive control, (130) 99
Adaptive control mechanism, (132) 411
Adaptive policies, (128) 282
Adaptive traffic signal controller, (131) 273
Add-ins, (135) 461
Adjusting prices, (130) 276
Advance demand information, (130) 519
Advanced traffic information systems, (131) 253
Advanced traffic management systems, (131) 253
Advanced traveller information system, (131) 302
Aggregate production planning, (133) 521
Aggregation operators, (129) 372
Agriculture, (130) 133, (132) 425
Agricultural marketing, (130) 315
Agricultural systems, (134) 677
AHP, (132) 39
Air traffic management, (131) 400
Air transportation, (129) 337
Air transportation networks, (132) 260
Airlines, (129) 337
Airline pricing, (134) 631
Akaike's information criterion (AIC), (132) 666
Algorithm, (133) 94
Algorithms, (130) 147
Allocation, (128) 447
Allocative efficiency, (133) 416, (134) 232
Analysis of algorithms, (134) 203
Analysis of consequences, (128) 311
Analytic hierarchy process, (128) 499, (132) 1, (132) 176, (133) 342
Analytic hierarchy processes, (129) 48
ANP, (132) 39
Apportionment problem, (131) 676
Approximation algorithm, (128) 159
Approximation, (128) 74, (135) 67
Aquaculture development, (133) 462
Arms races, (129) 518
Artificial intelligence, (130) 623
Artificial intelligent agents, (131) 293
Aspiration levels, (128) 587
Assembly sequence, (131) 611
Assembly system, (135) 602
Assessment criteria, (128) 322
Asset and liability management, (128) 418
Asset liability management, (134) 279
Asset–liability management, (134) 293
Associativity, (130) 29
Assortment selection, (129) 186
Asymmetric information, (134) 29
Asymptotic distribution, (128) 532
ATM network, (129) 650
Attribute weighting, (129) 569
Augmented Lagrangian method, (132) 603
Autocorrelations, (134) 540
Average time to signal, (132) 187

Balanced matrix, (133) 455
Bank branch efficiency, (134) 232
Bank branch evaluation, (132) 296
Banking, (134) 232, (135) 338
Bargaining problems, (135) 527
Barriers to travel, (130) 486
Basket, (129) 209
Batch processing machine, (131) 95
Batching, (135) 177
BATNA, (132) 1
Bayesian causal maps, (128) 479
Bayesian information criterion (BIC), (132) 666
Bayesian networks, (128) 479
Bayesian statistics, (130) 437
Behavior, (131) 550
Behavioral decision making, (129) 569
Benchmarking, (133) 512
Benefit/cost analysis, (133) 342
Bicriteria scheduling, (129) 87
Bid–ask spreads, (133) 635
Bidding, (130) 156
Bilevel problems, (128) 639
Binary linear programming, (133) 496
Block diagonalization, (130) 588
BMAP, (131) 16
Boolean quadric polytope, (131) 119
Bootstrap, (134) 17
Bottleneck shiftiness, (134) 425
Bounded multiple-choice knapsack problem, (129) 471
Branch and bound, (128) 447, (131) 611
Branch-and-bound, (132) 425
Branch and bound algorithm, (135) 361
Branch and bound procedure, (133) 267
Breakdown, (135) 493
Business process, (128) 351, (134) 664

Calculus of variations, (132) 106
Call centers, (131) 459
Call center planning, (135) 50
Capacity expansion, (130) 190
Capacity placement, (134) 425
Capacity planning, (134) 365
Capacity reservation, (131) 635
Capacity, (129) 683
Capital budgeting, (135) 326
Capital market synergetics, (135) 270
Capital rationing, (131) 536
Carbon sequestration, (135) 616
Cash flow management, (130) 468
Catering supply chain, (133) 210
Causal maps, (128) 479
Cell formation, (134) 346
Cellular, (134) 439
Cellular system, (135) 114
Ceteris paribus, (128) 364
Chance-constrained programming, (131) 440
Chaos, (129) 518
Choice, (129) 1

0377-2217/01/$ - see front matter © 2001 Elsevier Science B.V. All rights reserved.
PII: S0377-2217(01)00290-9

Choice degrees, (129) 372
Choice functions, (132) 619
Choquet integral, (129) 596
Classification, (129) 1
Classification scheme, (128) 679
Climate change, (135) 616
Clique polytope, (131) 119
Clustering, (135) 413
CO_2/energy taxes, (132) 1
Cognitive mapping, (134) 179
Cognitive maps, (128) 479
Cognitive style, (131) 649
Column generation, (135) 57
Combinatorial analysis, (131) 664, (131) 676
Combinatorial optimisation, (129) 242
Combinatorial optimization, (130) 147, (130) 332, (133) 583, (135) 86
Combining forecasts, (134) 84
Communication, (128) 258, (128) 300, (128) 351
Compact scheduling, (130) 90
Compensability analysis, (133) 190
Compensation, (133) 190
Competence set, (128) 98
Competition, (129) 159, (129) 461
Competitive analysis, (128) 74
Complete preorder, (133) 69
Completion time variance, (132) 643
Complex AND/OR precedence, (135) 428
Complex problems, (128) 266
Complex societal problems, (128) 231
Complexity, (128) 74, (128) 233, (128) 290, (128) 300, (132) 694
Compram, (128) 266
Compromise programming, (133) 462, (133) 483
Compromise solution, (134) 564
Compromise weights, (134) 616
Computational analysis, (135) 67
Computational complexity, (134) 623
Computational geometry, (130) 214
Concave transformability, (132) 374
Conceptual modeling, (128) 338
Concessions, (130) 414
Conditional convexity, (132) 326
Conditional probability, (134) 592
Conditional return distribution, (134) 481
Cone of recession, (133) 409
Confidence intervals, (129) 65
Conflict, (128) 258, (130) 414
Conflict analysis, (130) 388
Conflict resolution, (134) 330
Congestion, (132) 62, (132) 75, (132) 81, (135) 195
Congestion effects, (134) 365
Conjoint analysis, (128) 58, (130) 361, (132) 1
Conjoint measurement, (129) 1
Connective rules, (130) 29
Consecutive-k-out-of-n: F repairable system, (129) 663
Consensus formation, (130) 332
Construction heuristics, (129) 555
Consumer, (131) 514
Consumer behaviour, (129) 461
Consumer decision, (128) 98
Container berth, (131) 282
Container loading problem, (131) 143
Continuous approximation, (129) 287
Continuous time homogenous Markov process, (133) 667
Contracting, (130) 156
Control, (128) 74, (130) 169, (131) 293, (132) 123, (132) 479, (134) 648
Control theory, (131) 389, (134) 508
Conversion, (132) 466
Convex hull, (135) 514
Convex programming, (133) 120, (133) 409
Co-op advertising, (135) 527
Co-operation, (132) 694
Cooperative game, (129) 596
Coordination, (130) 54, (135) 527
Covering location models, (135) 195
Cow, (134) 677
Credit granting, (130) 402
Customer satisfaction analysis, (130) 347
Cut polytope, (131) 119
Cutting, (128) 34, (134) 378
Cutting plane, (131) 119
Cybernetics, (128) 233
Cycle time, (128) 175
Cyclic scheduling, (129) 539

Dantzig–Wolfe decomposition, (129) 471
Data envelopment analysis, (128) 206, (130) 121, (131) 132, (131) 324, (131) 572, (132) 62, (132) 245, (132) 260, (132) 274, (132) 287, (132) 296, (132) 312, (132) 326, (132) 343, (132) 357, (132) 374, (132) 390, (132) 400, (132) 553, (133) 377, (133) 416, (133) 512, (135) 102, (135) 477, (135) 545
Data envelopment analysis (DEA), (129) 443, (132) 75, (134) 43
Data mining, (134) 141, (134) 592
Data reduction, (134) 592
DEA, (130) 498, (133) 232
Deadlines, (133) 447
Decision analysis, (131) 162, (132) 1, (132) 176, (135) 527
Decision making, (128) 338, (128) 570, (130) 305, (132) 505
Decision modeling, (128) 499
Decision rules, (129) 1
Decision support system, (130) 202, (135) 209, (135) 303
Decision support systems, (128) 206, (128) 300, (128) 499, (130) 402, (130) 623, (131) 302, (131) 649, (133) 310, (134) 141, (134) 179
Decision support, (128) 98, (129) 569
Decision theory, (128) 459, (130) 576, (131) 550, (132) 123, (132) 197
Decision types, (132) 505
Decision-support systems, (129) 355, (133) 362
Decomposition of efficiency, (132) 357
Decomposition–coordination methods, (133) 323
Default probabilities, (135) 338
Default risk, (135) 233, (135) 311
Deficit irrigation, (133) 653
Demand management, (129) 311
Density theorems, (133) 260
Dependence between service and interarrival times, (128) 611
Depreciation, (132) 197
Derivative algorithm, (128) 570
Design for remanufacturing, (135) 373
Design for the environment, (135) 373
Design management, (130) 539
Design of centralized networks, (132) 539
Design reviews, (130) 539
Deteriorating items, (132) 210, (134) 1
Deterministic, (133) 447
Deterministic decision making, (130) 665
Deterministic frontier, (129) 434
Deterministic scheduling, (130) 638
Differentiability, (132) 50
Differential games, (128) 213
Direct utility method, (134) 564
Directional bias, (128) 664
Disaggregated Miller–Tucker–Zemlin constraints, (133) 21
Disaggregation–aggregation, (130) 388
Disassembly, (135) 373, (135) 428
Discrete parameters, (133) 160
Discriminant analysis, (131) 324
Disjunctive programming, (132) 326
Distance between preorders, (133) 69
Distances, (128) 664
Distribution, (129) 134, (129) 299, (129) 311, (131) 491, (133) 81
Distribution free approach, (132) 466
Diversity, (134) 70
Dominance, (134) 557
Dominance rule, (135) 394
Double marginalization, (130) 83
Doubly weighted grouping efficiency, (130) 588
Dual control, (130) 99

Dual problem, (133) 267
Dual-based approach, (132) 88
Dynamic capacitated user-optimal departure time/route choice, (132) 603
Dynamic competitive advertising, (128) 213
Dynamic optimization, (131) 482
Dynamic programming, (129) 471, (130) 169, (130) 468, (131) 352, (131) 536, (131) 603, (132) 116, (133) 32, (134) 508, (134) 582

Earliness, (128) 129, (131) 95
Earliness and tardiness penalties, (129) 95
Earliness–tardiness, (130) 638
Ecological efficiency, (132) 312
Ecological tax reform, (132) 1
Ecological–economic system, (132) 561
Econometric decision model, (130) 276
Economic efficiency measurement, (134) 43
Economic policy, (130) 276
Edge coloring, (135) 57
Education, (130) 121, (130) 223, (132) 357, (135) 545
Efficiency, (129) 443, (130) 498, (131) 572, (131) 685, (132) 62, (132) 553, (133) 512, (135) 545
Efficiency evaluation, (132) 274
Efficiency measurement, (129) 434
Efficient, (133) 298
Efficient frontier, (129) 586
Efficient point, (133) 260
Efficient solutions, (128) 435
Electric power industry, (133) 232
Emergency transshipments, (129) 311
Empowerment, (132) 694
Energy, (130) 156, (135) 326
Environment, (131) 62, (134) 582, (135) 102
Environmental policy, (132) 1
EOQ, (130) 83, (132) 628
Equilibrium, (133) 62, (135) 527
Equilibrium distribution, (132) 163
Equilibrium points, (135) 350
Equilibrium states, (131) 482
Equity, (131) 685, (132) 17
Equity criterion, (135) 184
Ergodic state, (131) 530
Estimation, (130) 99
Euclidean, (130) 510
European transport networks, (128) 385
Evaluating regions, (132) 343
Evaluation criteria, (129) 627
Evidential reasoning, (131) 31
Evolution functions, (131) 482
Evolutionary computations, (135) 1, (135) 220
Evolutionary models, (128) 385
Ex ante evaluation, (128) 311
Excel, (135) 461
Expected utility theory, (131) 476
Exponential smoothing, (131) 375
Extended enterprise, (129) 259

Facilities, (129) 481
Facilities planning and design, (129) 287, (131) 282
Facility location, (129) 461, (130) 214
Fading memory, (128) 185
Failure risk, (129) 663
Field of tensions, (130) 70
Field of variations, (130) 70
Finance, (130) 402, (130) 623, (131) 536, (134) 249, (134) 261, (134) 279, (135) 270, (135) 303, (135) 326, (135) 477
Financial institutions, (128) 418
Financial planning, (132) 479
Financial resources, (133) 298
Finite buffer capacity, (128) 192
Fishery management, (133) 432
Fixed-WIP, (131) 78
Flexible flowshop, (132) 528
Flexible manufacturing system, (129) 326
Flexible manufacturing systems, (129) 105, (129) 116, (130) 70, (131) 171, (133) 624
Flow network, (131) 664
Flow, (131) 587
Flow shop, (128) 147, (129) 539, (130) 90
Flowshop, (129) 224, (131) 95, (131) 622, (132) 439
Flow shop scheduling, (132) 643
Flow time, (135) 602
Forecasting, (128) 311, (129) 496, (129) 518, (130) 437, (131) 293, (131) 375
Forestry, (135) 616
Fractional programming, (131) 224
Free disposability, (132) 75
Free disposable hull (FDH), (134) 43
Freight distribution, (131) 62
Fuzzy, (129) 683
Fuzzy adaptive network, (128) 647
Fuzzy connectives, (130) 29
Fuzzy game, (129) 596
Fuzzy goal programming, (133) 548
Fuzzy inference system, (128) 647
Fuzzy integral, (130) 653
Fuzzy linear programming, (133) 521
Fuzzy logic, (128) 545, (131) 273
Fuzzy majority, (129) 372
Fuzzy mathematical programming, (133) 496
Fuzzy measure, (128) 98, (130) 653
Fuzzy number, (133) 287
Fuzzy programming, (131) 1, (133) 287
Fuzzy set theory, (135) 616
Fuzzy sets, (129) 48, (129) 65, (129) 496, (130) 20, (130) 29, (130) 430, (131) 232, (131) 302, (133) 521, (135) 158, (135) 209, (135) 296, (135) 303
Fuzzy signal controller, (131) 273

G/G/1 queue, (134) 540
Game theory, (129) 159, (129) 337, (129) 596, (131) 208, (131) 417, (133) 608, (134) 330, (135) 527
Gaming, (128) 300
Gas turbine engines, (132) 490
General claims, (133) 635
Generalized assignment problem, (132) 22
Generalized convexity, (131) 132
Generalized data envelopment analysis, (129) 586
Generalized minimum spanning tree problem, (134) 457
Generating function, (131) 530
Genetic algorithm, (128) 175, (131) 143, (134) 346, (134) 564
Genetic algorithms, (128) 34, (128) 58, (128) 385, (129) 496, (129) 586 (131) 282, (132) 594, (134) 165, (135) 1, (135) 220, (135) 413
Geometric programming, (132) 628
GIS, (135) 67
Global balance equation, (133) 667
Global optimality, (132) 210
Global optimization, (133) 267, (133) 377
Global strategy, (131) 389
Global supply chain optimization, (129) 134
Goal programming, (130) 233, (131) 324, (131) 476, (131) 685, (132) 17, (132) 594, (133) 287, (133) 298, (133) 310, (133) 323, (133) 362, (133) 462, (133) 548, (134) 84, (134) 157
Governance, (128) 322
Graph theory, (132) 569
Group decision, (130) 54
Group decisions, (130) 414
Group decision making, (130) 665
Group decision support systems, (134) 70
Group decisions and negotiations, (130) 111, (131) 162, (134) 70, (135) 220
Group theory, (134) 70

Habitual domain, (128) 98
Handling societal problems, (128) 266
Hedging, (129) 209
Heuristic algorithms, (134) 203

Heuristic, (130) 449, (132) 643
Heuristics, (128) 58, (128) 129, (128) 509, (128) 625, (129) 105, (129) 186, (129) 224, (129) 271, (129) 317, (129) 555, (130) 147, (130) 638, (131) 107, (131) 459, (131) 622, (132) 439, (132) 453, (132) 490, (133) 183, (133) 394, (133) 624, (134) 103, (134) 193, (134) 439, (135) 394
Hierarchical decision-making, (133) 323
Hierarchical models, (135) 195
Higher education, (133) 298
HNBUE, (132) 163
Hop constraints, (132) 539
Hospitals, (133) 416
Host country, (133) 62
Hub decision, (133) 483
Hybrid genetic algorithms, (132) 224
Hybrid OR/AI method, (131) 31
Hyperplanes, (130) 665
Hysteretic control, (131) 16

Ideal matrix, (133) 455
Impact assessment, (128) 311
Imperfect price information, (134) 43
Implementation, (134) 459
Imprecise weight and value, (134) 557
Incomplete information, (129) 414
Incomplete market, (135) 233
Indentifying alternatives, (132) 505
Independent tasks, (134) 606
